

Western League Premier Division

Saturday 9 August 2014

Slimbridge 3-0 Gillingham Town

On the opening weekend of last season, Slimbridge made the trip to Gillingham Town for their first ever game in the Toolstation Western Premier League and came away on the wrong end of a 2-0 scoreline, to a team that eventually ended up in third place in the table. This time, though, the tables were turned as the Swans raced into a two goal lead in the first six minutes, and never really looked like relinquishing their advantage after a display that continued the momentum that the side has built up during pre-season.
